

Thesis and Dissertation Electronic Publication Form

7/22/2006

Student Information

Form fields for Student Information: First Name, Last Name, UID, Degree Program, Graduation Date, Street Address, City, State, Zip, Daytime Phone Number, Email Address.

Electronic Distribution Information

Please check only one:

- Four checkbox options regarding electronic access and embargo restrictions for the thesis or dissertation.

I understand that any embargo is at my discretion as the copyright holder and that I may request that the University lift this embargo at any time.

I acknowledge that I have reviewed the options for making my thesis or dissertation publicly available through ProQuest and DRUM and that I have discussed these options with my advisor.

Signature and Date fields.

Title of Thesis / Dissertation field.

Advisor and Advisor Signature fields.

# **Publishing Your Thesis or Dissertation: ProQuest Digital Dissertations<sup>®</sup> & DRUM, the Digital Repository at the University of Maryland**

Congratulations on finishing your doctoral dissertation or master's thesis. The next step is to submit your document in PDF form to the University for approval, archiving, and publication through the Graduate School and ProQuest Information and Learning (PQIL)'s Electronic Thesis and Dissertation (ETD) program. This process is described in detail at <http://www.gradschool.umd.edu/etd> and in the University's ETD Style Guide, available at <http://www.gradschool.umd.edu/styleguide>.

During the submission process, you are required to grant the University and ProQuest Information and Learning a one-time, "non-exclusive right" to archive, release, and reprint your work. ProQuest will send a bound print copy of your work to the Libraries. This is a non-circulating copy which will be available for reading in the Maryland Room of Hornbake Library. Both ProQuest and the Libraries will host an electronic version of your work. ProQuest will keep a copy in its commercial database, *Digital Dissertations*; and the Libraries will keep a copy in the Digital Repository at the University of Maryland (DRUM), available at <http://drum.umd.edu>. DRUM is an open-access archive, which means that your work will be freely available online.

## **What is ProQuest Information and Learning (PQIL)?**

ProQuest Information and Learning (PQIL) is a private company that maintains, through an arrangement with the Library of Congress, the bibliographic record for over 2 million master's theses and doctoral dissertations dating back to 1861. This is done through the *Digital Dissertations* database, a popular full-text research tool to which many university libraries subscribe. Nearly 700 institutions submit titles to the database, including every accredited doctoral degree granting institution in North America. The submission agreement allows ProQuest to host your work and to offer it for sale through its database and other online outlets, such as Amazon.com. You are entitled to receive an annual royalty payment of 10% of all income PQIL receives from the sale of your work, payable in each year that the accrued royalties reach \$10.00. Institutions that have "open access" subscriptions to ProQuest's *Digital Dissertations* have free access to the full electronic text of all documents in the database.

Additionally, for a fee, ProQuest will submit your work to the Copyright Office of the Library of Congress for copyright registration. Note that you, as the author, hold copyright to your work regardless of registration, but registration makes copyright easier to enforce should your work be plagiarized.

## **What are the benefits of having my work available through Proquest and DRUM?**

- Your research can be found, read, and used by a global audience, including scholarly colleagues and potential publishers and employers.
- Your research can be found by most popular search engines, such as Google or Yahoo, as well as through special repository search engines.
- Increased accessibility to your research increases the chances of it being cited in other scholarly work.
- Access to your work is maintained with a permanent URL, to which you can refer and link from your CV, email messages, or web pages.

## **What are my choices regarding access?**

As the owner of copyright in your work, you have the exclusive right to reproduce, distribute, make derivative works based on, publicly perform and display your work, and to authorize others to exercise some or all of those rights. As a condition of graduation, your work must be published. When you submit your work to the Graduate School you will be given several options regarding access to your work via ProQuest's *Digital Dissertations* and DRUM, the Digital Repository at the University of Maryland. Your options include:

### **A. Make your work available via ProQuest and DRUM as soon as it is received**

The abstract and full text of your work will be present in Proquest's *Digital Dissertations* for purchase, and will be both freely available and searchable online via DRUM.

## **B. Restrict online publication of your work for either 1 or 6 years**

You may place an embargo (a restriction) on electronic access to your document through ProQuest's *Digital Dissertations* and DRUM if there is legitimate reason to do so. Patents or future publication, for example, might be jeopardized by providing unrestricted access (see below). Should you elect to restrict online publication of your work, a description of your research, including your name, the title, your advisor's name and the abstract will be available via ProQuest and DRUM, but the actual electronic file will be unavailable for viewing or download until the selected embargo period has passed.

## **C. Restrict online publication of your work indefinitely**

You may place an indefinite embargo on your work. In this case, a description of your work including your name, the title, your advisor's name, and the abstract will be available via ProQuest's *Digital Dissertations* and DRUM, but the actual electronic file will be embargoed indefinitely. This option requires the written approval of the Dean of the Graduate School. This restriction can be lifted at the request of the author at a later date.

These choices only affect the *electronic* distribution of your thesis or dissertation document. A non-circulating copy of your thesis or dissertation will be available for consultation in Hornbake Library's Maryland Room, and print copies of your document will be made available upon request to researchers through inter-library loan.

## **Publication and Patent Issues**

### *Patenting:*

Under U.S. patent laws, public dissemination of patentable information, such as through publication or a seminar, effects the deadline for filing for patent protection in the U.S. and may eliminate your ability to acquire foreign patent rights. As a result, if you intend to seek patent protection for material covered in your thesis or dissertation, you may wish to request a delay in publication through PQIL and DRUM. A one-year embargo is usually sufficient for patent purposes.

The Office of Technology Commercialization (<http://otc.umd.edu>) may be able to help you with the patent process if you and the University jointly own the intellectual property rights in a patentable invention or if you as the sole owner of those rights assign them to the University. Consult the University of Maryland Policy on Intellectual Property, Sections VI and VII, at <http://www.president.umd.edu/policies/iv320a.html>.

### *Publishing:*

The policies of publishers of professional journals with respect to publishing articles that are the identical to or a revised version of a work that was previously released and can vary significantly from publisher to publisher. You may want to speak with publishers to whom you are likely to submit your work regarding their policies before you complete the Thesis and Dissertation Electronic Publication Form. A one-year embargo on electronic publication is sufficient to comply with most publishers' policies regarding pre-posting of material.

If you intend to publish your research as a monograph, the process will be more complicated and longer than the process for publishing a professional article based on your thesis or dissertation. Again, you may want to ask potential publishers about their policies regarding publication of your thesis or dissertation in PQIL and DRUM. A six-year embargo on electronic distribution should provide adequate time for prior monograph publication.

Publisher contact information is available at AcqWeb's directory: <http://acqweb.library.vanderbilt.edu/pubr.html>. In addition, a list of publishers' copyright and self-archiving policies is maintained at the SHERPA site: <http://www.sherpa.ac.uk/romeo.php>.

If you have any questions concerning the availability of your work on ProQuest's *Digital Dissertations* or DRUM, please contact Dr. Matthew Hill at the Graduate School at [mbhill@gradschool.umd.edu](mailto:mbhill@gradschool.umd.edu), or the UM Library's DRUM Team at [drum-help@umd.edu](mailto:drum-help@umd.edu).
